

Why choose us?

AUSTRALIAN MADE

For us, “locally made” isn’t just a check box – it’s a proud declaration. Our range of lifts are designed and manufactured right here by our team in Australia, exceeding Australian Standards and made to withstand Australian elements.

FAST LEAD TIME

Because our lifts are manufactured here in Australia, we are able to offer very competitive delivery, installation and replacement part timelines. Making your elevation journey quick and seamless.

MODULAR

Our unique self-supporting aluminium lift towers with dual hydraulic system are a modular design and pre-constructed at our factory; they require a shallow pit depth and can be installed on site in as little as two days.

CUSTOMISABLE

Our lifts can be tailored to perfectly suit your home or business. Our team will help you customise the features and functionality of your lift to suit your requirements.

LEADING WARRANTY & SUPPORT

Our quality guarantees are second to none in the industry. Our lifts are delivered, installed and tested by our qualified lift technicians. Our locally based after-sales service is unrivaled.

RELIABLE & SAFE

Our lifts are engineered to exceed Australian Standards, with fail-safe systems designed for total peace of mind. Our advanced multi-layered safety systems are trusted to deliver a safe, smooth ride.

Since 1995, Aussie Lifts has helped Australians live on their terms.

We proudly manufacture our range of lifts right here in Australia, ensuring the highest quality, shorter lead times and unparalleled support and solutions.
