

ELEVATE THE
HOME YOU LOVE

Australian made residential
and commercial elevators.

Capability Statement

WHO WE ARE

Aussie Lifts are the residential and commercial elevator specialists who work directly with homeowners, builders and architects. Based in Brisbane and supply throughout Australia, we help Aussies who want to stay in their home as they get older, who live with a disability or who are looking to increase the value of their property.

Since 1995, Aussie Lifts has been dedicated to enabling an accessible, luxurious, and stylish lifestyle.

Our locally designed and made products aren't just premium quality, they're also an affordable life-changing and value-adding investment for more Australians.

WHAT MAKES US DIFFERENT

Aussie Lifts offers personalised service and affordable, customisable products – without jeopardising quality and reliability.

AUSTRALIAN DESIGNED AND MADE

Our low-maintenance lifts are designed and built locally to the highest standards. As one of the few non-importers in the market, every model exceeds Australian Standards (Part 12, 14, 16, 17 and 18) and is BCA compliant (BCA E3.3 & E3.6) for disability access.

FAST AND PROFESSIONAL

An Aussie Lift is manufactured, delivered and installed three times faster than imports. We can have your product to you within eight weeks, compared to the typical 26-week turnaround of competitors.

LEADING WARRANTY AND LOCAL SUPPORT

Our quality guarantees are second to none in the industry. If you ever do need replacement parts, they're available right here – minimising downtime and delays compared to waiting for components from overseas.

COST-EFFECTIVE AND SIMPLE

Every Aussie Lift has low installation, maintenance and running costs – with just annual servicing required. They also don't need load-bearing walls or machine rooms, which makes them suitable for more homes.

OUR PROCESS

With a team of over 70, we are committed to exceeding your expectations. That's why our proven four-step process is designed to give you confidence and deliver where it counts.

DESIGN

Our professional team discusses your requirements with you to customise our locally designed models to achieve your goals.

MANUFACTURE

We manufacture and test in Queensland to ensure superior quality and consistent adherence to Australian Standards.

INSTALL

After a site inspection, installation usually takes 2-3 days – including complete wiring, testing, cleaning and usage/emergency training.

SERVICE

To ensure optimum performance, the Aussie Lifts team services every 6-12 months – depending on use. This includes checking and adjusting the hydraulic oil, control valves, safety devices, electronic systems and mechanical components.

OUR CAPABILITIES

We're dedicated to constantly improving the style, affordability and practicality of our lifts to suit the needs of the Australian market. That includes providing diverse customisation options – such as an array of colours and automatic doors.

RESIDENTIAL AND COMMERCIAL LIFTS

- Advanced hydraulic drive systems
- Up to 500 kg capacity
- Automatic operation
- Backup battery and emergency phone
- Single or dual entry models
- No overhead height or load-bearing wall requirements
- Wide range of options, including diverse finishes, voice control and flood sensors

OUR TESTIMONIALS

We've developed and installed over 5,000 lifts in 27 years, which makes us the trusted professionals in the industry. By listening to your needs, we put together a solution that works for you.

“ I chose Aussie Lifts after a great deal of investigation of similar products available. The family run company is local with many years of experience. - Robyn Taylor

“ Aussie Lifts installed our domestic lift approximately 13 years ago. It's been serviced by them annually every year and I have always been happy with the service. - Shell Wiltshire

“ I am very happy with every aspect of advice, sales, installation and support. At every stage of the process, the staff were helpful and supportive. - Helen Cooper

“ Always professional friendly service. I've had my lift for 10 plus years always serviced and repaired by Aussie Lifts. Always a pleasure having the technician's service/repair my lift. - Julie Blaine

“ Aussie Lifts have been wonderful in building, supplying and installing a Platform Lift for us. - Beryl Stabe

“ Great service, great product. Wish we had made this investment sooner. - Jeremy Carnegie
