HOME YOU LOVE

Australian made residential
and commercial elevators

PHOENIX

A LIFE-CHANGING & VALUE-ADDING INVESTMENT

PHOENIX

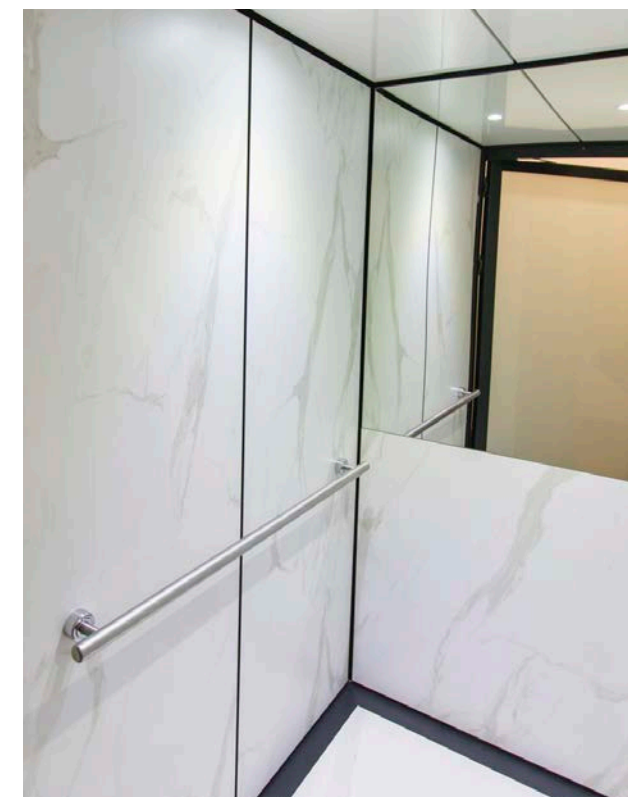

ACCESSIBLE, STYLISH & LUXURIOUS SINCE 1995

For multi-story homes, the Phoenix pushes the boundaries of what's possible with a residential lift.

It's the high-performance option that's fast and customisable to suit any requirements.

With lifts installed in over 5000 locations Australia-wide, you can be rest assured of the highest quality and guidance every step of the way.

To put your mind at ease, we offer a detailed lift consultancy service to identify and customise the best product fit for you.

RESIDENTIAL LIFT PROMISE

AUSTRALIAN DESIGNED AND MADE

Our low-maintenance lifts are designed and built locally to the highest standards. As one of the few non-importers in the market, every model exceeds Australian Standards (Part 12, 14, 16, 17 and 18) and is BCA compliant (BCA E3.3 & E3.6) for disability access.

FAST AND PROFESSIONAL

An Aussie Lift is manufactured, delivered and installed three times faster than imports. We can have your product to you from eight weeks, compared to the 26-week turnaround of competitors.

LEADING WARRANTY AND LOCAL SUPPORT

Our quality guarantees are second to none in the industry. If you ever do need replacement parts, they're available right here – minimising downtime and delays, compared to waiting for components from overseas.

COST-EFFECTIVE AND SIMPLE

Every Aussie Lift has low installation, maintenance and running costs – with just annual servicing required. They also don't need load-bearing walls or machine rooms, which makes them suitable for more homes.

PHOENIX OPTIONS

CHOOSE THE RIGHT ELEMENTS FOR YOUR LIFT

A selection of customisable options are available for the Phoenix Lift.

Dual Entry - Deluxe	1100	1400	2100	1575	1590	920/970

EXAMPLE

SAFETY FEATURES

Supplied with an impressive list of standard safety features, the Phoenix offers peace of mind with its in-car emergency telephone, infra-red door sensors, emergency backup battery systems, and emergency lowering facilities.

PIECE OF MIND

Manufactured in Australia since 1994. Built to Australian conditions. Guaranteed availability of parts for 15 years. Industry-leading Warranty. Custom built to your specification. Unrivalled after-sales service.

INSTALLATION

Supplied, assembled and pretested, the design of the Phoenix allows for easy installation by either craning in as a single piece or by dismantling and reassembling. Installation can be completed within as little as one day.

COST EFFECTIVE

Self Supporting Shaft - no load-bearing walls required. No separate machine room construction required. Lift is pre-assembled and commissioned at our factory before dispatch to site. Low service costs and power consumption. Can be installed externally up to wind region C3.

MAINTENANCE

For optimum performance, reliability, and long term use, the lift should be serviced every 12 months by an approved lift technician.

CUSTOMISATIONS

Each lift is custom designed and constructed to your requirements with an impressive list of options available including: Automatic door operators; Voice Control of the lift; Access Control security features; Flood switch sensors for flood zones; and door options to match your existing property.
